

July 8, 2017

Dear **Members,**

Those of you who have been to Balesin recently would have noticed that we've had incredibly good weather on the island considering that the rainy season has started setting in. In fact, we've had the best of both worlds - sunshine during the day and cool rains in the evening. What better way to spend your holiday in an island paradise?

In case you didn't know, the month of July also marks the migration of the majestic whale sharks (*butanding*) to the bodies of water surrounding Balesin Island. We've had numerous sightings around the island of these gentle giants, which members and guests have had the opportunity to swim alongside.
